

INSTITUTE OF BIOLOGY

Recognising excellence

We award Chartered Biologist (CBiol) status, the highest professional status for bioscientists

Continuing professional development

Our CPD scheme supports professional competence. Our training courses help you expand your expertise

Supporting young scientists

At school and university, we reward outstanding biologists

One voice for biology

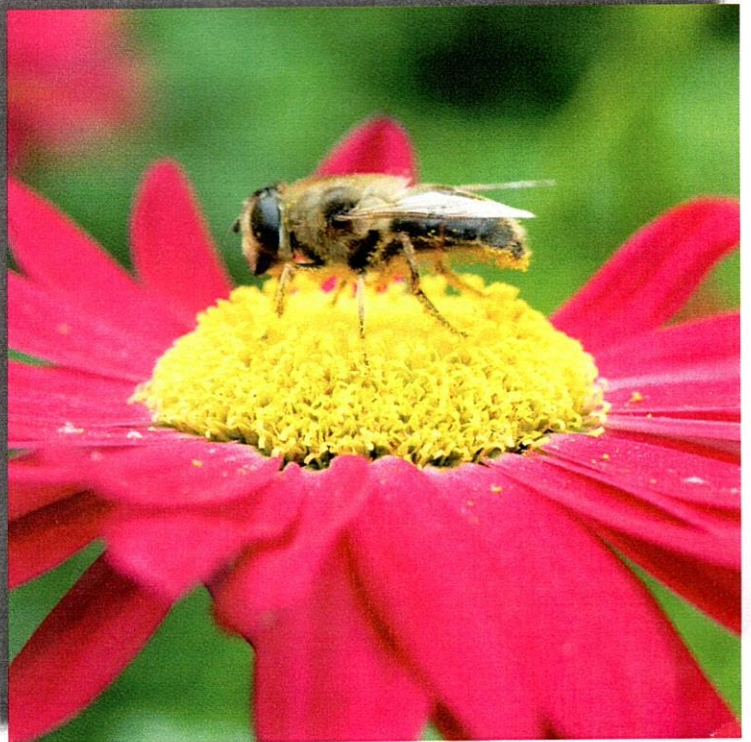

We represent our members and the biology profession to government, parliament and other bodies

Providing networks

At local events, you will exchange ideas with bioscientists from the wider community

Keeping you informed

Through *Biologist* and the *Journal of Biological Education*, we communicate the diversity of biological and educational research today
